UNITED STATES INTELLIGENCE BOARD

MEMORANDUM FOR THE UNITED STATES INTELLIGENCE BOARD

SUBJECT : Release of Sanitized Information and Sanitized
Photography Derived from GIANT SCALE Coverage
of North Korea [REDACTED] 25X1A

REFERENCE : USIB-D-46.7/12 (COMIREX-D-2.11/22),
7 July 1969, limited distribution

1. The attached memorandum on the subject from the Chairman,
Committee on Imagery Requirements and Exploitation (COMIREX)
submits for USIB consideration two recommendations in paragraph 3
of [REDACTED] memorandum.

2. COMIREX recommends that the Board: (a) authorize CINCPAC
to release sanitized intelligence and photography from the 16 August
GIANT SCALE mission flown over North Korea in accordance with the
procedures and restrictions in the reference document, and; (b) that
COMIREX be authorized to approve each release of future GIANT SCALE
mission results [REDACTED] following the same procedures and restrictions.

3. In regard to the second recommendation, COMIREX noted the
likelihood that further GIANT SCALE missions would be scheduled, and
that USIB had authorized the release [REDACTED] of sanitized intelligence
and photography from the June and July GIANT SCALE missions under
the clearly established guidelines in the reference. Therefore, COMIREX
proposes that the Board authorize COMIREX to approve each release
[REDACTED] of future mission results under the same guidelines, in order to
relieve the USIB of repetitive case-by-case consideration and to expedite
CINCPAC release of authorized GIANT SCALE materials [REDACTED] 25X1A

MEMORANDUM FOR: United States Intelligence Board

SUBJECT: Release of Sanitized Information and
Sanitized Photography Derived from
GIANT SCALE Coverage of North Korea
[REDACTED]

REFERENCE: USIB-D-46.7/12 (COMIREX-D-2.11/22)
7 July 1969, Limited Distribution

1. Pursuant to 303 Committee authorization, the third SR-71, GIANT SCALE, aircraft mission (S-175) was flown over North Korea on 16 August 1969. In line with the USIB action and instructions in reference a. authorizing release [REDACTED] of GIANT SCALE photography from the two previous missions, CINCPAC has requested authority to release [REDACTED] [REDACTED] sanitized intelligence and photography from the 16 August GIANT SCALE mission.

2. COMIREX noted at its 4 September 1969 meeting the clearly established guidelines for release of GIANT SCALE photography [REDACTED] set forth in reference a. and the likelihood that further GIANT SCALE missions would be scheduled. COMIREX further agreed to propose that the Board authorize COMIREX to release future GIANT SCALE mission photography in accordance with the procedures and restrictions in reference a. without need for reference to the Board. Approval of this authority would relieve the Board of repetitive case-by-case consideration of subsequent missions and would expedite CINCPAC release of authorized GIANT SCALE materials [REDACTED]. Should special considerations arise relative to any future GIANT SCALE mission or should any modification or extension of the procedures and restrictions in reference a. be proposed, COMIREX would of course submit the issue to the Board for action.

3. It is recommended that the United States Intelligence Board

a. Authorize CINCPAC to release sanitized intelligence and photography from the 16 August 1969 GIANT SCALE mission [REDACTED] in accordance with the procedures and restrictions established by the Board in reference a.;
